TEAM ALIGNMENT WORKSHOP (OPEN SPACE & LEGO)

INTRODUCTION

- Utilize and Apply the Open Space Technology tool to extract and elicit feedback on the alignment issues that need to be address
- Apply the LEGO Serious Play model to create a Narrative or Story and use the KJ Methodology to filter and prioritize the Alignment criteria as well create a final list of alignment issues.
- Understand and Apply the Personality Model to better understand how to overcome silo or alignment issues within the organization.
- Apply and Implement the Personality model to create communication strategies to better aid in aligning the organization and improve team communications.

WHO SHOULD ATTEND

- HR Managers
- Operational Management
- All Levels of Management

INTRODUCTION

Organizational alignment is the key to any successful organization. Working in a siloed organization creates unknown gaps in your customer experience. It also takes away any accountability or transparency between departments.

The only way to truly accomplish this is through organizational alignment.

This workshop will allow the participants to facilitate critical issues that is currently affecting the effectiveness of the organization and teams, particularly after the events of the Covid-19 Pandemic, with WFH and Rotational Staff challenges

YOUR TRAINER: MR NICHOLAS CHAN

A Corporate Trainer with 15 years of Experience behind him, he is an expert in Personality and Leadership, Organisational Behaviour.

He is also an Expert Facilitator and Facilitative Space Designer, which is important for this program. Being an educationist himself, he also loves working with new working and learning systems and methodologies
